

# QuattroPod USB

NEXT GENERATION USB SINGLE  
CABLE TRANSMITTER

PLUG and CAST.

QuattroPod USB is an intuitive  
cross-platform wireless casting solution.  
We have slimmed down the transmitter to  
one single USB interface.

It's time to ditch the cables and for a  
hassle-free experience.

# SINGLE CABLE SOLUTION

“Less is more”

Replace HDMI, DisplayPort, and USB with the next generation QuattroPod USB transmitter.

## Mobile friendly support

Support with mainstream mobile devices

**Instant Plug and Cast**  
Instant App-free casting

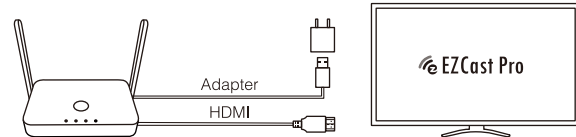

**Touchback control**  
Control your device wirelessly with touch panel

**Cross platform compatibility**  
Compatible with major OS systems

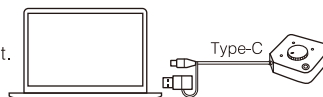

## How to Start QuattroPod

**1** Power on QuattroPod Receiver and connect to projector or monitor via HDMI cable.

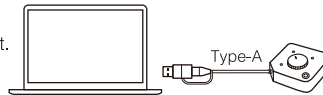

**2** **PC / Laptop**

**Type-C mode :** Switch to USB Type-C mode and plug into PC's USB Type-C port.  
\*Please make sure your device supports Type-C Alt Mode.

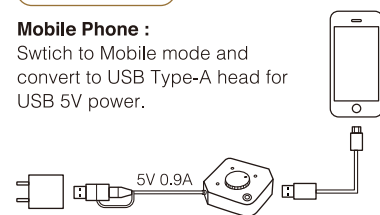

**Type-A mode :** Convert to Type-A head and plug to PC, and install the app to cast.

\*Type-A mode requires 5V/0.9A to work, USB3.0 is recommended.

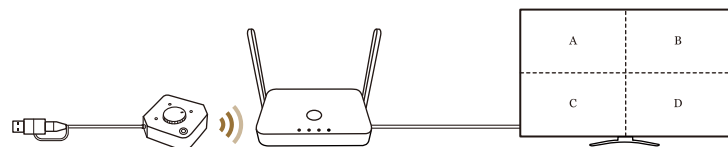

**iOS / Android**

**Mobile Phone :** Switch to Mobile mode and convert to USB Type-A head for USB 5V power.

**3** The QuattroPod USB will cast automatically.
